## Our Candidate for Governor.

Charles E. Flandrau, the gentleman who received the nomination as the Democratic candidate for Governor, it appears was born in the State of New York in the year 1828. He is a descendant on his mother's side of General Alexander Macomb at one time commander in chief of the United States Army. His father was a distinguished Jurist in the State of New York. Charles E. after having received a good Academic education received the appointment at the age of fifteen years, as midshipman in the United States Navy. Having at that time a fragile constitution he was not allowed to enter upon his duties in the Navy Department. But desiring to try the life of a "sailor boy," he made the sea his home for three years, as a common hand before the mast. After the return of the vessel on which he was employed, with his health greatly improved, muscles and body greatly developed by hard work and coarse living, he returned to his home, and pursued his studies. He afterwards joined a regiment of United States Mounted Rangers raised by the Government to fight Indians on the Pacific coast, his father being unwilling that his son then so young, should be exposed to all the perils and hardships incident to an expedition of that kind, refused to give his consent to his enlistment. He then went to the City of New York and entered as an apprentice to the Cabinet making business, and remained about two years, his health failing, he returned home, and after he had sufficiently recovered he entered his father's law office, and applied himself with assiduity and perseverance to the study of the law. In about two years he was admitted to the Bar in that State as a practicing Attorney. About the year 1856 he removed to the then Territory of Minnesota, and opened a law office at Traverse des Sioux. Being poor and not having "rich relations" and at that time having no acquaintances here, for all were strangers, economy compelled him, for the first year, to keep "bachelors hall" but his transcendent abilities as an Attorney, and his honesty and integrity as a man, soon won the respects and confidence of the community, and it was soon known that he was the "coming man," business flowed upon him and it was not two years before he stood on the top round of the ladder of his profession. At that time his professional duties frequently required him to travel a hundred miles at a time, and as the Country was then new—no carriages, horses, roads, or bridges,—to enter time, he was obliged to travel on foot, through the dense forest and over the barren prairies, or if his duties called him to St. Paul he frequently rowed, with his own hands, his canoe a distance of ninety miles, from his place of residence, to the latter place. In the year 1854 the people of Traverse des Sioux district elected him to the Territorial Council, and he there in that deliberative assembly, then composed of the ablest men in

the Territory, soon took rank as one of the ablest of his peers, and obtained the reputation throughout the Territory as a first class parliamentarian, a good and effective debater, and an indefatigable worker for the interest of his constituents, and the Territory at large. Before the time had expired for which he was elected to the Territorial Council, he was appointed by the Government Indian Agent and entered upon the discharge of his duties as such. He formed a party and marched to Spirit Lake to capture the celebrated Indian Chief Inkpa duta, who, it will be recollected, committed such outrageous atrocities and murder on the women and children of that place in the winter of '56 and '7. The Indians on the approach of their revengers speeded, and lived to fight another day, the party however succeeded in rescuing the women and children in the hands of the Red Skins and in killing the son of the Indian chief.

When it was proposed to form a State Constitution for the State of Minnesota preparatory to her admission into the Union as one of the free and independent States, he was chosen a delegate to the constitutional convention, and by examining the debates in that body it will be seen that Mr. Flandrau was one of the master minds therein, familiar with constitutional and natural law, and we must acknowledge that we are largely indebted to him for the admirable State Constitution under which we live. Upon Minnesota being admitted into the Union he was elected one of the Judges of the Supreme Court, and in reading his decisions as published in the Minnesota Reports it will be admitted that he was a Jurist of uncommon abilities and will compare favorably with the ablest Jurists of our Country.

On the breaking out of the Indian war in 1862, Judge Flandrau, while then one of the Supreme Judges of our State, voluntarily led a company of volunteers and marched with lightning speed into the very bowels of the Red Devils. He with his comrades of two hundred men fought five hundred Indians for three days and nights, and blood, and finally repulsed them with great slaughter. Probably it was through his exertions and his men, that New Ulm, Mankato, St. Peter and other towns on the frontier were saved from conflagration and the citizens from general massacre.

In the year 1864 Judge Flandrau resigned his position on the Supreme Bench, and in 1873 resumed the practice of his profession in conjunction with the Hon. Isaac Atwater, at Minneapolis. The wife of Judge Flandrau after a protracted illness died in July last beloved by all who knew her, an exemplary member of the Episcopal Church, and while he was absent from the State accompanying her remains to the burial place of her relatives, the Judge unsolicited or unknown by himself received the unanimous nomination of the Democracy of this State as their candidate for Governor.

Thus we have given a short history of the life of the standard bearer of the democrats in this State in the approaching campaign. It is expected and believed, that in addition to the undivided support of the democrats, he will receive the votes of a large number of liberal minded Republicans.

## A Rather Pointed Question—Greenbacks or Gold.

To General R. B. Hays, Radical candidate for Governor of Ohio.

In 1831 I enlisted as a private in the Thirty-fifth O. V. I. When I entered the service I had one hundred dollars in gold, which I loaned to a neighbor and took his note, payable three years after date in gold. After the expiration of my term of service I returned home and demanded payment of my note, according to contract; but I was compelled to take legal tender notes. The premium on gold at that date (December 22d, 1864) was \$2.22. Is the bondholder better than I am, who spent three years in the service of my country? While his bonds are exempt from taxation, my small (two-fifths of an acre) lot and cow are taxed to raise money to school his children. He contributed nothing for the support of my family while in the army. I have always voted the Republican ticket, and will do so this fall provided you answer my question directly. Are you in favor of paying off the bonded debt of the United States by the issue of legal-tender notes in their stead, without interest?

"A THIRTY-FIFTH O. V. I. BOY."

Whole families of soldiers are in the same condition. 30,000,000 of people are in the same condition. While bond holders have \$2,000,000,000 of bonds entirely exempt, and being exempt, of course the taxes, at an average of 2 per cent. on this amount, are lost to the country, and have to be made up by so much higher taxes on the balance of the property of the country.

That is 2 per cent. on \$20,000,000, equal to \$400,000,000 of taxes are lost to the country by exempting United States bonds; and you, and me, and all of us have to make it up by so much higher taxes on our farms, our goods, our town lots, our stock, etc., paid in city, county and State taxes.

## MARRIED.

At Excelsior Sept. 1st, by the Rev. C. B. Sheldon Mr. Jas. W. Thompson and Miss Hannah A. Slater.

Long life and continued joy to the happy pair, is the ardent wish of the local. The "Wedding cake" accompanying the above notice was duly devoured by "this" old "bach," but we wish to add a supplemental notice to the above and that is: "go thou, and do likewise." Andrew.

MILL BURNED.—We are informed by Mr. R. Patterson, that the Steam Saw Mill of Mr. George Kraschenske of Young America, caught fire and burnt down on Friday night, Aug. 30th. It is not known how it caught fire. Loss about \$800, with no insurance.

THE WHEAT CROP IN CARVER CO.—We have the extreme satisfaction to announce, after obtaining reliable information, that the wheat crop in this County will be larger than ever before.

There has been at our levee for the past few days a set of large beautiful Burr Stones, shipped from Utica New York, which we are informed are intended for the spacious Flour Mill in course of construction at Waconia, by Erbe & Enders.

AWFUL HARD TIMES.—This is the name of an original story, now being published in the Anoka County Press, which is intensely interesting. The story will soon be published in book form, when we predict a large sale.

PERSONAL.—We were called upon by Messrs. Patterson and Gethelfer our efficient County Commissioners, who report everything prospering finely in their respective localities.

Mr. O. Curtis, the gentlemanly General Agent of the Aetna fire insurance Company was also in town this week, enroute to Waconia to adjust a loss sustained by Mr. Nichols.

Hon. E. F. Lewis, our popular member of the Legislature last winter, was in town this week, looking every inch as Democratic as of yore.

WEDDINGS.—Seem to be contagious now days, we have had the pleasure to record the tying of the Hymeneal cord by some half dozen of our young bachelors friends within a month, and rumor has it that several more are about toppling over the matrimonial brink. Our advice is go in.

BUILDING.—We are informed that several new buildings will be commenced next week. We hope so, as building has thus far, been very dull in our town, owing greatly to the want of building material in our midst.

We shall publish the proceedings of the Co. Board in our next issue.

"JACK FROST".—We are informed by our farmers that the frost on Friday night Aug. 30th, did considerable damage to the corn crop, the stock will be of no use as fodder for the cattle. It also killed tomato, and melon vines.

TEMPERANCE LECTURE.—Capt. Johns will deliver a Temperance Lecture at the Moravian Church, Sunday morning at 10 o'clock.

NEW TRI-WEEKLY.—We are in receipt of the Tri-Weekly Zeitung, a very neatly printed paper, intended for Campaign purposes in the interest of the Republican party.

Our Special Correspondent,

MARKET DAY.—Last Saturday was market day, and a large crowd was in attendance, a large number of horses belonging to parties from below were brought up for sale, also a lot of cattle brought in by the farmers. Everything passed off pleasantly, and strange to say with only "one knock down and I run away." Business with our merchants was very good.

RIVER NEWS.—The S. B. Mankato passed down on Saturday evening with a light load. Capt. Alex. Griggs "the man at the wheel" informs us that the water is still falling fast and that the boats will soon be unable to get over the Rapids. Sand bars begin to show themselves above Belle Plaine. The "Otter" was here Sunday morning with a fair load.

RUNAWAY.—On Thursday afternoon the horse belonging to Dr. Haas of Chaska got frightened at some object by the road side near Keller & Hartz Brewery and came into town at a 2-40 pace with part of the buggy shafts and harness hanging to him. He was finally stopped near the Drug Store of G. A. DuToit, and found to be considerably hurt, one end of the shaft having entered his hind leg and cut an ugly looking gash. No further damage was done I believe.

PERSONAL.—E. Holmes left on Tuesday last for Chicago to purchase his fall stock.

A Knoblauch also left on Wednesday for the same place and purpose.

Dr. Davis and party returned from their Big Stone Lake trip on Friday. The Dr. says they had a good time all the way through. Mosquitoes bothered them some, and high water also gave them a little trouble. Take it all through all were pleased with their trip.

Capt. James Houghton was in town over Sunday, having stopped off his boat one trip.

NEW WHEAT.—Wheat is coming in quite fast, and selling at 100 and 110 on the street, Between 5 and 6 hundred bushels was bought on Saturday.

REAL ESTATE SALE.—Alex. Ramsey, lot No. 5 and 8 to George A. DuToit, for \$20.

**Reapartor Capilli.**

Throw away your false frizzes, your wivens,  
your wig—  
Destructive of comfort, and not worth a fig;  
Come aged, come young, come manly and fair,  
And rejoice in your own luxuriant hair.

**REAPARTOR CAPILLI.**

For restoring hair upon bald heads, (from  
whatever cause it may have fallen out) and forc-  
ing a growth of hair upon the face, it has no  
equal. It will force the beard to grow upon the  
smoothest face in from five to eight weeks, or  
hair upon bald heads in from two to three months.  
A few ignorant practitioners have asserted that  
there is nothing that will force or hasten the  
growth of the hair or beard. Their assertions  
are false, as thousands of living, witness (from  
their own experience) can best witness. But  
many will say, how are we to distinguish the  
genuine from the spurious? It certainly is dif-  
ficult, as nine-tenths of the different Preparations  
advised for the hair and beard are entirely  
worthless, and you may have already thrown a-  
way large amounts in their purchase. To such  
we would say, try the Reapartor Capilli; it will  
cost you nothing unless it fully comes up to our  
representations. If your Druggist does not keep it,  
send us one dollar and we will forward a  
sample, together with a receipt for the money  
which will be returned to you on application,  
providing entire satisfaction is not given.

### TRIP TO WACONIA.

#### Anniversary Celebration.

On Sunday morning last, in company with the "Concordia" and others of our citizens, we started for Waconia, for the purpose of attending the 1st Anniversary Celebration of the Waconia Liederkreis, and jolting down any items of moment that should come under our observation.

After a ride of about an hour, we brought up at Mr. Poppitz, the gentlemanly host of the Laketown house, after a short stay here, the party proceeded to Waconia, where the "Concordia" of Chaska, which under the able leadership of Mr. Kerkker has attained a degree of proficiency truly surprising, greeted the gentlemen "Fritz" with a splendid song, after which they proceeded on their way, arriving in due time, after a most pleasant ride of some three hours, just in time to escape the heavy shower, which greeted their arrival into town.

WACONIA.  
We found this snug burgh in a flurry over the preparation incident to a large gathering of this kind.

The rain necessitated a change of programme—the Picnic, in contemplation, was given up.

Shortly after our arrival we were invited to partake of a very elegant lunch, after which Dr. Gotthelf delivered the address of welcome.

SINGING.  
Was next in order, and the "mauer choir" of Watertown favored the audience with the initiatory song, which was well received by the audience.

The "Concordia" of Chaska, and were loudly applauded by the large audience present. The Liederkreis then took the stand, and entertained the audience a while with some handsome songs. Most of the afternoon was passed in this manner.

About 6 o'clock P. M. the "Pioneer choir" of Young America arrived, who also sang a number of songs, in such a manner as to make the large hall ring with applause.

SUPPER.  
The company were then informed that supper was ready, the seats at the large tables were quickly filled with occupants, who done ample justice to one of the most elegant suppers, that it has been our good fortune to partake of, for some years.

DANCING.  
Late in the evening the young folks commenced "tripping the toe," and kept it up to a late hour in the morning.

Everything passed off very pleasantly, and our Waconia folks may well feel pleased with the happy termination of this their first anniversary. Much praise is due Dr. Gotthelf, Henry Basler, Frank Hoesenstah, Mr. Scheiden, and others for their untiring energy in the management of this undertaking.

REPUBLICAN NOMINATIONS.—We publish in another column the nominations of the Republican party in this County. Space forbids any comment this week. In our next issue we shall have little something to say in regard to them.

Our local matter is rather scanty this issue, owing to the extreme length of the proceeding of the County board. Next week we shall publish the proceedings of the Board of Equalization.

SCHOOL LAND SALE.—By reference to another column, it will be seen that the State Auditor has adv. the School Lands, to be sold at Chaska on Saturday the 20th day of Oct.

Republican State Nominations.  
The Republican Convention held last Wednesday was a stormy one, but the bond men finally triumphed, by securing the re-nomination of Wm. R. Marshall for Gov., H. C. Rogers, as Sec. of State; Emil Munch, for Treasurer; R. E. Cornell, Selah Chamberlain Atty. as Attorney Genl. In fact it was one of the most stormy Convention ever held in this State. In some future issue we shall have occasion to refer to these nominations.

Democratic Victories.  
California has gone Democratic by 10,000 majority, a gain of over 15,000, since the last general election.

The Democrats have gained some 5,000 in Vermont. The Republicans barely electing their ticket.

In Maine the Democrats gain up wards of 10,000. These victories are the forerunner of the coming election this fall. Look out for Democratic gains in every State.

WOOD WANTED.  
I will pay the highest market price for any quantity of good merchantable wood, delivered in town. I am paying at the present time from 3.25 to 4.00 per cord. Give me a call at my Store on Chestnut St.

### Carver Items.

Our Special Correspondent,

ARRIVED.—Our town was greeted on Thursday evening with the familiar whistle of the "Mollie" who has just left the upper country, and is now running from St. Paul to Lax. We had the pleasure of receiving a pleasant call from the popular commander, Harry W. Holmes and Clerks Mohler and Walsh, all tip-top good fellows and every inch of them Steam boat men. The Mollie will always be popular with such officers.

MELONS.—Our town has been chucked full of both Water and Musk Melons for the last week, selling from 5 to 15 a piece, and no buyers at that. They are very plenty this year. "Plums" have also made their appearance upon our streets but are high and scarce.

BUSY DAYS.—Friday and Saturday were busy days for our merchants, a large quantity of wheat was brought in for sale and also to mill, and business was very good both ways, we are in hopes it will continue so now, farmers being nearly through harvesting.

LARGE TRANSCENDENT CRAB.—Mrs. George Houghton has placed before us, a dozen apples grown in her garden, the largest measuring five inches in circumference. There will be upon 10 trees about 2 bushels, who can beat that for size and yield. Mrs. Houghton has also a splendid lot of "frame grapes" which makes a persons "mouth water" to look at. Out of 10 plants or more only 5 survived the winter. Those five doing well.

REMOVED.—Our friend and fellow townsman, John G. Blakeslee, left on Monday afternoon for Illinois where he will remain hereafter. Mr. Blakeslee has made hosts of friends in the short time he has been with us, and all will regret to hear of his departure, may success attend him wherever he may

affords an insight into the reckless manner in which business is conducted in that city.

The *Herold* says: "The petitioner is a brother of Robert Schuyler, the former President of the New Haven railroad, who left the country in consequence of the exposure of the well-known frauds in which he was implicated, and died in Italy."

The indebtedness of George L. Schuyler is set down at not less than four million dollars; and he swears that he has no assets whatsoever.

The brokers figure very prominently among the confiding victims. A prominent Democratic Manhattan Club politician is touched to the tune of one hundred and eighty-two thousand dollars.

One well-known broker figures in the schedule for three hundred and twenty-nine thousand dollars, "money loaned."

Four other firms in the same business evinced a similar confidence in the bankrupted man, and lost a total of about seven hundred thousand dollars.

Some sharp lawyers are creditors for one hundred thousand dollars, while the great railroad king suffers for over half a million, all on the same description of indebtedness. The loans by themselves amount to over two million dollars.

Foreign Gossip.

Sixty-one trains run every day between London and Manchester—leaving for a short run.

In Havana, the telegraph operators are obliged to wear a uniform when on duty, and a sword on state occasions.

A railway tunnel, more than a mile and a half long, has been nearly driven through an extinct volcano in New Zealand.

Eighteen new bridges have been built across the Seine during the reign of Napoleon III., at a cost of about five million dollars.

Two English inventors have just exhibited in the streets of Paris a musical locomotive which runs forwards and backwards to the air of the "Tannhauser March."

Dickens' first appearance as a public reader in the sleepy old town of Peterborough, twelve or fourteen years ago, was a failure.

Steeled toilers, it is said, are coming in to use on French locomotives. Twelve express engines with steel wheels, are on their way to Paris, fifteen on another, and several on other lines.

There are but comparatively few English drivers on the Egyptian railways. They receive from 300 to 350 francs per month, besides overtime. They lately were on a question of hours and wages, and made a strike at termini, but their pay was not withheld.

A venerable pair in Greenwich, Scotland, lately gave a dinner at which were gathered their nine sons, fourteen grandsons, and five daughters-in-law. Neither they nor any of their guests were over the age of thirty.

In the translation of Miss Mullbach's "Joseph in Egypt," the following sentence is given: "Her arms, as she was fair and beautiful as those of the Venus of Milo." Miss Mullbach and her translators seem to have forgotten that the Venus of Milo has lost both arms!

A competitive trial of speed between two locomotives, one manufactured by Borsig, of Berlin, and the other by Sigl, of Vienna, was made at St. Petersburg, June 30th. Each engine had to draw a weight of 600 up an incline of 1 in 125. The Austrian engine made the run in 10 minutes, and the Prussian only eight.

George Francis Train is out again on his railroads for Europe. He has addressed a circular to every corporation in England, Ireland and Scotland, and every one of the fifty-two papers in London, and every one of the fifty-two papers in London, and every one of the fifty-two papers in London.

A Kentucky correspondent tells of a little girl who met, only eight years old, who had chewed tobacco for four years.

A carefully estimated list of the number of persons executed since 1803, by Maximilian's order, shows a total of 9,241.

It would take a train nearly seven days to run from New York to San Francisco, by way of Chicago, at the rate of 30 miles per hour and making the usual express stops.

An Essex paper, in giving an account of a family feuding by day and night, says: "They were sitting round the table at the time, and were terribly shocked, all believing themselves dead for some time."

The Commissioners of the General Land office have issued a patent in favor of the Union Pacific Railroad Company, Eastern Division, embracing 22,100 acres of land in the Territory of Nebraska, and having paid up in full three of their bonds in consideration.

Two whales came into Seacoast river, in Rhode Island, recently, and lost their lives there. The larger one succumbed only to the third harpoon. It took two horses, four yoke of oxen and 100 men to drag him upon the beach, where he lies exposed to the gaze of the curious.

A dispatch from Olympia, W. T., says: "The party which is making a survey of the Northern Pacific railroad has found a route over the Cowlitz Pass to the forks of Cowlitz, which they report to be extremely favorable for the road. The survey over the mountains will be finished in thirty days."

The widow McClintock, or Steele, Farm, once famous in the oil regions, remains wholly idle. No oil is being produced. It is now the property of Mrs. Steele. A local paper says that "Johnny, her wayward husband, who has spent \$50,000, don't like to go to work again."

Illinois, on the 31st ult., received its semi-annual "plum" from the Illinois Central Railroad Company—being the sum of two hundred and seven thousand dollars, or seven per cent. of the earnings of the road for the six months ending April 30. The amount foots up nearly two thousand dollars in excess of last year's payment.

The Union Pacific Railroad is now finished seventy-five miles west of Julesburg. The grading is done thirty miles beyond the end of the track. Four parties are surveying between Fort Sanders and Salt Lake. The engineers of the Central Pacific Railroad, surveying in Utah, are trying to compete in speed with the Union Pacific.

The Quincy *Republican* of Saturday last says: "About 8 o'clock Wednesday morning, a heavy raft of saw logs, destined for St. Louis, ran against the piles which had been driven for the pivot pier of the railroad bridge, carrying away ten or twelve of them. It then struck a pile which was the pier No. 4, and uprooted several. The accident is laid to the charge of the raftsmen, who are said to have been careless in the matter."

The widow of Louis Fox, the noted billiard player, who was drowned in the Genesee river at Rochester last spring, has received \$20,000, the amount of a policy of insurance held by her upon his life. A lawyer of that city wrote to the company offering them to withhold the money, and asking to produce evidence that Fox committed suicide. But the company knew, though the lawyer did not, that such proof would avail him nothing, as he had under a recent court decision, no bar to the collection of a life insurance.

A petition was filed in the Bankruptcy Court in New York last week, by George L. Schuyler, to be adjudged a bankrupt, and discharged from all his debts, which

slaved. The war was on the left cheek, and while the whole right side was paralyzed, the left leg and arm became paralyzed, and the two turned over the left shoulder.

A little girl who had, on the 17th, gone blackberrying in the ledges near Lackawanna, Pa., a station on the Erie Railroad, not returning that night, was sought for the next day, and found dead. She had strayed near a den of rattlesnakes and died from their bites, seventeen marks being found on her body.

A few days since, twenty-seven women of Rockville, Iowa, decided to abate the whisky saloons of that place, and they did. They were arrested, and tried before a Justice of that place, and acquitted. Subsequently they were arrested again, and taken twenty-five miles before another Justice, where they were again acquitted, after a three days' trial.

About the middle of last week, Delos Atkes, a well-known lawyer of Sherburne, Chenango county, New York, was arrested, charged with setting fire to a house, and taken to the penitentiary at Baiting, where he was again acquitted, after a three days' trial.

A letter dated Chicago, Aug. 2, postmarked New York, was forwarded to the *Chicago Press* by the Young Men's Christian Association of the former city, which paid the postage and sent it to the *Chicago Press*, which it warmly forwarded to the Association for its kindness in forwarding the gift package, and to indicate that violence enough had been used to produce death. McCormick stated that he went to bed after quarreling, and awoke to find his wife dead. He was in the room, and had been troubled with severe pain in the region of the breast. This letter is corroborated by a daughter of the deceased.

Edward Parker, aged nineteen years, and son of Lafayette Parker, of Connecticut, Crawford county, Pa., died from the effects of a stroke of lightning, which struck him on the afternoon of the 8th ult., ten days before. At the time of being struck he was seated in a grocery store, and the lightning was so close that it ran a pond a quarter of a mile distant. The deceased at the same instant felt a shock in one of his limbs, and he was thrown from his seat, and fell on his back. The shock was also felt by other parties in the store, but not severely.
